. THE FAMINE IN SHANTUNG

that the denote it he advisors if a city of Shanlong from which Starting while some resulting in term two Japanese into experted to the death of source of the monded, of from the registry to Judic in this men wingen and californ as partly in it (Thinese faw the IV the forced exportance of food. The famine is not due to drough бина сви преобник вы Лария повен the foundation of Stanfang by the Doctoble depended on tempation Japanese empire under the frosty; of from the waters of the Vetton river

law against the shipment of food Chipese officials have known by Japanese agents they sold ev shipment in of food products from erything in the way of food and per other parts of the country than this

Paris. The Chinese have a law pro. The hundre is Shanting a on an biliding the export of fixed products ifour one produced by the nor is order to prevent family. Only more of all available food supply by special treaty is Japan allowed by the Japanese and their experi to expure 500,000 bags of circ as if it out of the drifted Japan sually from the province of Kukien, surpose in doing this has been two When the Chinese boycom against fold. First she wanted the food the Japanese gor ecorn and what supplies as a reason to case of Chinese lecolies refused supper as hereperful, war, and it fear that unload or load aplanese thips at the Chinese public much in time be Chinese ports the apanese govern needed to the point of refusal to ment became very much trightened other well or load food products at the possible cutting of of their that second a desire to produce a food supply and as April of this condition in this district without year they sent Japanese agents int " and dependent as it is to the what is now called the famine dis legritories now held by the Japanese criet and began buying up every that would result in an exodus of pound of food that could be bought the population and cause them to regardless of price. It was shipped move out leaving the rich valley of town the Yellow river to Tainanto the Yellow river more open and There was, of course no Chinese ready for Japanese occupation. The products within the boundaries of his teen roung on for months but the republic. At Teinaufu this face because of the embatro on arm product came under the control of and munitions of war which have the Japanese officials now dominat prevented them from putting them ing the province of Shantung, and letter in a position to enforce that it was immediately loaded on the laws against the export of foorailroad carried down to the port products they have been powerless and shipped over to Japan. This to prevent it. The so called fam. process has been going on contin in district is netter supplied with sally all summer and the result is callroads, canals and assignable rivthat the schabitants of this district era than any other part of China are starving primarily because at and there is no part of China that tracted by the high prices offered could be so custly relieved by the

. LABOR LIQUIDATION

the immediate effect of reducing porary loss of buying power

Liquidation of high labor costs in purchasing power, this reduction is this country is becoming extensive, only a temporary condition, itself a judging from the wage reductions step in the general process of reannounced, affecting wilk, textiles, adjustment. At the same time and steel copper, leather and other in from the same causes cost of produstries. At the same time the duction decreases and lower prices number of unemployed in the large ultimately follow. These factors, to industrial areas is reported to be gether with increased efficiency of large. While such liquidation has labor, will in time offset the tem-
